Sand and Glue

I Am Kloot

Making it stick, drip upon drip
Is that what you do, with sand and glue?
Don't put out the light, let me see you tonight
'Cause that's what I'll do, with youMaking it stick, drip upon drip
Is that what you do, with sand and glue?
Don't put out the light, let me see you tonight
'Cause that's what I'll do, with youWhat good is God or laughter, if you don't know what you're after, whoo
Makes up the things that you do,
You're gutless and over-reaching, blessed and always preaching, whoo
Makes up the things that you doMaking it stick, drip upon drip
Is that what you do, with sand and glue?
Don't put out the light, let me see you tonight
'Cause that's what I'll do, with youI'll tell you what I thinks funny, you've got the looks and money, you
Make up the things that you do
Godless and without meaning, nothing left to believe in, whoo
Makes up the things that you doMaking it stick, drip upon drip
Is that what you do, with sand and glue?
Don't put out the light, let me see you tonight
'Cause that's what I'll do, with you
