So Stupid

The Briefs

well we were talkin just a touch
he wasnt educated much
you like to kick a lot of sand
at things you couldnt understand
so stupid so stupid so stupid that stupid!
you came to learn to read and write
you never had a chance in life
ever since the accident
we kicked you in the basement
so stupid so stupid so stupid that stupid!
all those doctors stare away
they hope for an invinsable
but in the end they should of known
your iq test should have shown
youre left without a brain
when you cant even spell your name
you better believe it
you better believe it
so now you sit around and drool
youre in a corner on a stool
youve got no state of mental health
youre in a class all by yourself
so stupid so stupid so stupid that stupid!
so stupid so stupid so stupid that stupid!
