

# Dogsong 2

## The Be Good Tanyas

All the dogs are haunted  
And the snow melts on the grass  
You were what I wanted  
But the fever could not last  
In the day, I am dreaming  
In the night, I am cold  
While the stars are up there singing  
All the dogs are growing old  
No regrets, they're out the window  
Frozen on the silver pane  
Gone like winter, let the wind blow  
Let the dogs howl at the rain  
In the day, I am dreaming  
In the night, I am cold  
While the stars are up there singing  
All the dogs are growing old  
Oh, the cats are in the alley  
And the rats are on the wire  
Time is breathless as a blossom  
And it's bursting with desire  
And the dogs wander freely  
Through the streets of long gone dreams  
Drift like ghosts down the back roads  
All the way to New Orleans  
In the day, I am dreaming  
In the night, I am cold  
While the stars are up there singing  
All the dogs are growing old
