

# Something New

## Girls Aloud

Never giving in when the sun's so high  
Gotta feel that heat when your call's so fine  
Down with the rhythm on another street  
Gotta let this go cause I feel so free  
Never givin' in cos I need you here, ah ah  
Go girls g-g-go go go  
We girls gonna take control  
You boys better know know know  
We girls gonna run this show  
Go girls g-g-go go go  
We girls gonna take control  
You boys better know know know  
We girls gonna run this show  
All I want is something new

Something I can hold on to

I don't wanna talk

I just wanna dance

Baby let it drop

Catch me if you can  
Cause we the leaders of the pack  
Take a walk on the wild side of life  
Take a walk on the wild side of life  
Bring it back to the other side  
Feel the beat deep underground

Boy, tonight, it's gettin' loud

We can go go anywhere

We don't care let me take it higher

We can do do anything

Play the game then maybe you'll win

Boy tonight you can't hold me back

Do what I want yeah I like it like that  
All I want is something new

Something I can hold on to

I don't wanna talk

I just wanna dance

Baby let it drop

Catch me if you can

All I want is something new

Something I can hold on to

I don't wanna talk

I just wanna dance

Baby let it drop

Catch me if you can  
Cause we're the leaders of the pack

Boy you better watch your back

We're the leaders of the pack

Tell me can you handle that

Cause we're the leaders of the pack

Boy you better watch your back

We're the leaders of the pack

Tell me can you handle that

Cause we're the leaders of the pack

Boy you better watch your back  
We're the leaders of the pack  
Tell me can you handle that  
Cause we're the leaders of the pack
