

Best Night (ft Will.I.Am, GoonRock & Eva Simons)

LMFAO

She never been on a flight,
She never been in a limousine
And now she's living the life
Popping bottles in LA
She's dancing up on the table
Got everybody's attention
She put my hands on her body
And then she whispered in my ear This is the best night of my life
And I wish this between you and I
Could last forever Let's make it last forever Let's make it last forever Let's make it last forever Let's make it last
forever I hope this ain't a dream
(This better not be no dream)
Please don't let this be a simulation
(This better be real)
'Cause you a pretty thing
I hope it's not my imagination
(It better be real) I'm dancing on the floor
I'm dancing with you, girl
We spin it round and round
You spin me round and round
I'm falling for you girl
I'm falling in love I know you want it
You know I want you too
I know you like it
I know you like my moves
On Saturday, on Saturday
Tonight be for free
Now that I got you
I won't ever leave you alone, alone, alone
Call your on my phone
Baby let's party the night away
I'm dancing with you
I wanna party with you, girl This is the best night of my life
And I wish this between you and I
Can last forever Let's make it last forever Let's make it last forever Let's make it last forever Let's make it last
forever You never know how it's gonna go
When you bring a chick up in the limousine
Seeing things she never seen
And you walk up in the club, straight holding her hand, like you the man

But deep in your hear you know she's a fan
'Cause she's struck by the stars
And the stars find her striking
You try to play it off 'cause you see a sign of frightening
Will.I.Am is spittin' at her
T-pain is winking at her
Ludacris is with his chick but his homeboys gettin' at her What's the matter? Oh nothing
I reply straight buffin' , grabbed the bottle started chuckin'
She grabbed my hand, pulled me to the dance floor
We dance close, and then she pulled my hands low Oh, I know where this is gonna go
I've seen it in a dream before
I love it when you hold me tight
And then we kiss to the moonlight This is the best night of my life
And I wish this between you and I
Can last forever Let's make it last forever Let's make it last forever Let's make it last forever Let's make it last
forever (Let's make it last for)
