

No One Ever Loves In Vain

[Beverley Knight](#)

Every day found us together
And no one knew of fate's design
Just as we begin to really live our dreams
Life ran out of time Every moment shared was worth it
Memories only I can claim
Though it hurts so much, it helps me understand
No one ever loves in vain, no, no What we had showed me the power
Of a very special friend
Our amazing bond we formed while you were here
Well, that will never end Every moment shared was worth it, oh, yeah
Memories only I can claim, yeah
Though it hurts so much, it helps me understand
That no one ever loves in vain Sometimes I feel like I am so lonely
And that's when I know that everything's changed
Yet through the tears I smile and say
I'm so glad you came, oh, yeah, yeah 'Cause every moment shared, well, it was worth it
Memories only I can claim, only me, yes
And though it hurts so much, you helped me understand
No one ever loves in vain
No one
