

# When I Fall

Gad Elbaz

Stay with me  
And watch me try  
I know you care  
When you see me cry

You're a piece of me  
You're in my face  
Even when I'm far

You can see it all  
I can't run away

Chorus:

Don't you forget me  
Don't let me go  
I pray you'll be with me  
From the depth of my soul

Always forgive me  
Because I want you to know  
I'm learning to grow  
Oh oh oh

You will always be the one that holds me when I fall

When I fall

(Music)

I still remember when  
I stumbled down  
You hold me tight  
I embraced the light

Step by step  
I'll reach the top  
I won't look down  
You lift me up

I will give it all

Now I'm here to stay

Chorus

You will always be the one that holds me when I fall

When I fall

(Music)

When I fall in your hand(x2)

Chorus

You will always be the one that holds me when I fall

When I fall
