

What Goes Up...

The Alan Parsons Project

What goes up must come down
What must rise must fall
And what goes on in your life
Is writing on the wall
If all things must fall
Why build a miracle at all?
If all things must pass
Even a miracle won't last
What goes up must come down
What must stand alone?
And what goes on in your mind
Is turning into stone
If all things must fall
Why build a miracle at all?
If all things must pass
Even a pyramid won't last
How can you be so sure?
How do you know what the end will endure?
How can you be so sure
That the wonders you've made in your life will be seen
By the millions who'll follow to visit the site of your dream?
What goes up must come down
What goes 'round must come 'round
What's been lost must be found
