

# Northern Comfort

## Crippled Black Phoenix

Home is where my heart is  
leading me back to where I was born  
find me there  
I fought so hard along the way  
battles I've lost for being myself  
an honest man  
I will stay true to my class  
to live my life with no sell outs  
life won't lend them out  
when the snow is falling  
chilled to the bone you hold my hand  
keeping me warm til the summer comes  
always leaving the light on  
waiting for me to come back home  
singing me lullabies  
home is where my heart is  
leading me back to where I was born  
find me there!  
when darkness falls I return  
keeping you from harms way  
you've always been my shelter!
