

Crazy Mary Goes Round

Dokken

There's a girl next door with a leather coat
And she looks pretty good to me
My friends all say that you better watch out
There's a side of her you haven't seen
Still I took a ride / it was late at night
We were cruising along on her motorbike
Everything was right / til crazy mary went down
So let me tell you about mary
[mary] crazy mary goes round
Let me tell you about mary
[mary] crazy mary goes round and round
Round and round
Called my doctor and I tried to explain
'cause it didn't make sense to me
Seven different sides and I've seen them all
One for everyday of the week
She gave me a scare / she was combing her hair
A long conversation there was nobody there
Does anybody know / what mary's talking about
So let me tell you about mary
[mary] crazy mary goes round
Let me tell you about mary
[mary] crazy mary goes round
So let me tell you about mary
[mary] crazy mary goes round and round
Round and round
[mary] crazy mary goes round
Funny thing about mary
[mary] crazy mary goes round and round
Round and round
Round and round
Upside down
