

# Just Take Your Time

Älga

Just take your time, take your time  
What you always tell me  
To take your time, baby take your time

Hour by hour, day by day  
Slow Ä~em down honey, so things can come your way  
People are running this world around  
Oh they would only live longer if they slowed things down

Just take your time, take your time  
What you always tell me  
To take your time, baby take your time

It so hard not to get caught up in it all  
Before you know, springÄ™s turned into fall  
Another year older and hopefully wiser  
Gotta make the best of your precious time here

Just take your time, take your time  
What you always tell me  
To take your time, baby take your time

Stop and look now, before itÄ™s too late  
Baby, clear your mind and take it day by day

Just take your time, take your time  
What you always tell me  
To take your time, baby take your time
