Radio

Mansions On The Moon

because you heard it on the radio
doesn't make it beautiful
where did all the music go?
i think its locked in a box in my heart and my soulputting it up for sale
we gotta write it down
box it up
ship it out
mark it down
or give it awayand if it doesn't sell
we gotta switch it out
move it around
because the people want it that waybecause you heard it on the radio
doesn't make it beautiful
where did all the music go?
i think its locked in a box in my heart and my souljust follow the leader
follow the leader yeah yeah yeah
just follow the leader
follow the leader yeah yeah yeahevery things the same down assembly lines
just different dashboards but the same damn car shine
padded pockets kick backs get your foot in the door
wasn't it about the music?
what are we here forbecause you heard it on the radio
doesn't make it beautiful
where did all the music go?
i think its locked in a box in my heart and my souljust follow the leader
follow the leader yeah yeah yeah
just follow the leader
follow the leader yeah yeah yeahthey told me to tell them put your hands up
so people will play my song in the cluh
and sing about the money that i don't have
make this song like the last song
and the song before thatbecause you heard it on the radio
doesn't make it beautiful
where did all the music go?
i think its locked in a box in my heart and my souljust follow the leader
follow the leader yeah yeah yeah
just follow the leader
follow the leader yeah yeah yeah
just follow the leader

follow the leader yeah yeah yeah
just follow the leader
follow the leader yeah yeah yeah
