

# Tonight (feat Tamta) [Radio Edit]

## Playmen & Claydee

Remember the time we had  
All these things you never told me  
Oh I'm trying to forget all these days  
You really want me Now I'm running away from you  
Running away, I'm running  
I'm running away from you  
I'm running away Cause tonight, tonight  
It's my night, I don't hurt anymore  
Cause tonight, tonight  
It's my night and I won't let it go  
I wish you could hold me close  
Stay around me and touch my body  
Oh I guess it's over now  
You'll never ever find me Now I'm running away from you  
Running away, I'm running  
I'm running away from you  
I'm running away Cause tonight, tonight  
It's my night, I don't hurt anymore  
Cause tonight, tonight  
It's my night and I won't let it go  
Cause tonight, tonight  
It's my night, I don't hurt anymore  
Cause tonight, tonight  
It's my night and I won't let it go
