

# End of Me

## Fantasia

Yes yes y'all, we don't stop  
Yes yes y'all, we don't stop  
Yes yes y'all, we don't stop  
Yes yes y'all, we don't stop You make me wanna cook breakfast, in the mornin'  
You put it on me so good I feel it in the evening.  
Now I feel so good you make me wanna hold  
Know what I'm talkin' 'bout, what I'm talkin' 'bout baby You light a fire deep inside this lady  
It's burning out of control You make me wanna love you  
Even though this love might be the end of me  
I can't help but love you  
This love is no good for me  
Could be the end of me  
And I can't help but love, love, love you  
Love, love  
Love, love, love you  
I can't help but I lay here up in this bed  
Tell my boss that I'm sick 'cause I don't wanna leave you darlin' Can't stay away for long  
I don't wanna keep you waiting  
Hm so good, I will fight if I have to  
Got a nigga out here acting crazy yea You light a fire deep inside this lady  
It's burning out of control You make me wanna love you  
Even though this love might be the end of me  
I can love me love you  
This love is not good for me  
Could be the end of me  
And I can't help but love, love, love you  
Love, love  
Love, love, love you  
I can't help but You make me wanna love you  
Even though this love might be the end of me  
I can't help but love you  
This, love is no good for me  
Could be the end for me And you make me wanna love you (But I can't, I can't)  
Even though this love might be the end of me  
I can't help but love you  
This, love is no good for me  
Could be the end for me  
And I can't help but love, love, love you  
Love, love

Love, love, love you  
I can't help but
