

Self Destruction (final)

Nine Inch Nails

I am the voice inside your head
And I control you
I am the lover in your bed
And I control you I am the sex that you provide
And I control you
I am the hate you try to hide
And I control you I take you where you want to go
I give you all you need to know
I drag you down, I use you up
Mr. Self Destruct I speak religion's message clear
And I control you
I am denial guilt and fear
And I control you I am the prayers of the naive
And I control you
I am the lie that you believe
And I control you I take you where you want to go
I give you all you need to know
I drag you down, I use you up
Mr. Self Destruct [Incomprehensible] I am the needle in your vein
[Inaudible]
I am the high you can't sustain
[Inaudible] I am the pusher, I'm a whore
[Inaudible]
I am the need [Incomprehensible] for more
[Incomprehensible] to the floor I am the bullet in the gun
And I control you
I am the truth from which you run
And I control you I am a silencing machine
And I control you
I am the end of all your dreams
And I control you I take you where you want to go
I give you all you need to know
I drag you down, I use you up
Mr. Self Destruct One king
One king
One king
One king I take you where you want to go
I give you all you need to know
I drag you down, I use you up

Mr. Self Destruct I speak religion's message clear
And I control you
I am denial, guilt and fear
And I control you I am the prayers of the naive
And I control you
I am the lie that you believe
And I control you I take you where you want to go
I give you all you need to know
I drag you down, I use you up
Mr. Self Destruct One king
One king
One king
One king One king
One king
One king
One king One king
One king
One king
One king One king
One king
One king
One king I am the bullet in the gun
And I control you
I am the truth from which you run
And I control you I am a silencing machine
And I control you
I am the end of all your dreams
And I control you I take you where you want to go
I give you all you need to know
I drag you down, I use you up
Mr. Self Destruct I take you where you want to go
I give you all you need to know
I drag you down, I use you up
Mr. Self Destruct
