

# What I Saw

## Nar

There's one room  
There's one light  
There's one night  
    In the fire  
    In the pain  
    In the wire  
This from me  
    This one lie  
That seems right  
Time can't climb  
    It can't be  
    It can't see  
I see to be right  
I fall down tonight  
I go to hell to be what I sell  
Falling again is such a welcome end  
Can the end of today be more than tonight  
    Echoes of these far reaching sights  
Stuck with the pain of knowing you should have tried  
    Give me your hands  
    And we'll never die  
    This love song  
    It sits wrong  
    It means jack  
The time's right to be wrong  
    All night long  
    I feel good  
I feel so far away  
    This is mine  
It could be anyday  
I saw what I saw  
I call up a man  
    Distance is what gets me right in  
I had a hand in everyone losing their place  
    Never must stop  
    It's stealing my heart  
A moment to squeeze begging on its knees  
I know I'll never be right beyond tonight  
    Give me your hands

And we'll never die
