

# Will The Guns Come Out

**Hanni El Khatib**

Will the guns come out, out, out  
Oh will the guns come out and play todayOh will the guns come out, out, out  
Oh will the guns come out and play todayOh will the guns come out, out, out  
Oh will the guns come out and play todayOh will the guns come out, out, out  
Oh will the guns come out and play todayWill you lose that job that you don't love  
Or will the lord come down and safe your fateWill your woman go and cheat behind your back  
And will your best friend lie right to your faceWill you put down money that you don't have  
Will you go and gamble that life awayWill you lose that love that you always had  
And they people you look up to every dayOh will the guns come out, out, out  
Oh will the guns come out and play todayOh will the guns come out, out, out  
Oh will the guns come out and play todayOh will the guns come out, out, out  
Oh will the guns come out and play todayOh will the guns come out, out, out  
Oh will the guns come out and play today
