

Ms Molly

Em Possible

[Verse 1: Em Possible]

She's been around she won't go away

Sometimes she stays for hours

Sometimes she stays for days

First I didn't like her

Then I had a taste

Like every girl

She left me high and dazed[Chorus]

Oh miss molly

How do you do

I have seen her around

But I never knew

You can take me places

I have never been before

At the end of the night

You leave me wanting more

Oh miss molly

How do you do

Oh miss molly it's so nice to meet you[Verse 2: Em Possible]

She doesn't come on too strong

No, oh she comes on real slow

Before you know what hit you

She's got you ready to go

On the dance floor

With a drink in your hand

Wonder how this night could ever end[Chorus]

Oh miss molly

How do you do

I have seen her around

But I never knew

You can take me places

I have never been before

At the end of the night

You leave me wanting more

Oh miss molly

How do you do

Oh miss molly it's so nice to meet you[Verse 3: Em Possible]

Like a blazing sunshiny

Turn up the heat

Like a baseline and assumption
Make you wanna move your feet
She'll make you feel so good
You'll never want her to leave
Oh-oh-whoa-miss molly[Chorus]

Oh miss molly
How do you do
I have seen her around
But I never knew
You can take me places
I have never been before
At the end of the night
You leave me wanting more
Oh miss molly
How do you do
Oh miss molly it's so nice to meet you
