

Love Me Like You Want

Amanda Overmyer

Pretty pretty boy I see you're out tonight
What's a piece like you doing on my side of the tracks?
 You ain't never going back
 Lovely lace and leather can tempt you to sin
 But fill it with a woman cold and calloused as me
Please, you'll drop to your kneesOh love me like you want to
 Love me hey daddy
 Cause your right in my grove
 Love me like you want to
Cause your right your right your right in my groveOh here kitty kitty
 I won't bite don't be scared
 Just give me one night
 When you're thinking about tomorrow
 You'll never want to leave
 So can I tempt you baby, tempt you baby?
 Not thinking about love or just one night
 But somewhere in the middle will be alright
So just try to take a wild step on my sideOh love me like you want to
 Love me hey daddy
 Cause your right in my grove
 Love me like you want to
Cause your right your right your right in my grovePlace apart the mysteries that you've been told
 Fiction is entertaining but always so cold
 I want to fell my way thought your mind
 Kiss me once and you'll get high
Kiss me twice you'll paralyzeLove me live you want baby
 Come on get it on with me
 Breaking through my style baby
 Crossing that line
 Making everything about you
Your right in my groveOh love me like you want to
 Love me hey daddy
 Cause your right in my grove
 Love me like you want to
Cause your right your right your right in my groveOh love me like you want to
 Love me hey daddy
 Cause your right in my grove
 Love me like you want to
Cause your right your right your right your right your rightOh love me like you want to

Love me hey daddy
Cause your right in my grove
Love me like you want to
Cause your right your right your right your right your right your right
