Take Me Tonight

Ashanti

Why don't you take me tonight?
Take me away wherever you like
'Cause I only want you, my baby
No place I rather be, you're all I need
All I want, so let's go
Boy, you got everything that I need
And I couldn't ask for more
And everything on me is all yours
'Cause you make me smile like I never smiled before
And I adore you, want a little more of you
Do anything, I'll go anywhere
As long as I can hold your hand
So let's go
Why don't you take me tonight?
Take me away wherever you like
'Cause I only want you, my baby
No place I rather be, you're all I need
All I want, so let's go
Baby, I ain't never been the type to fall in love
And having thoughts of me and just one
Till I found you and I'm proud to say
That I can't see me without you
You ain't nothin' like them other girls
'Cause I get to and travel around the world
And you ain't even gotta pack your things
Whatever you want or need I got it
So let's go
Why don't you take me tonight?
Take me away wherever you like
'Cause I only want you, my baby
No place I rather be, you're all I need
All I want, so let's go
Now can you take me
And can you make me feel
Like I never felt before?
Shorty, I can take you and I can make you feel
Like you need more and more
Maybe we can go somewhere tonight
If you want to, baby, we can catch a flight

Long as I got you, baby, everything is okay
Listen, you can ride wit' me, you can fly wit' me wherever
Or we can stay at home, we can be alone together, baby
'Cause you know I need you, baby
Ain't no place I rather be
You're all I need
You're all I want, so let's go
Why don't you take me tonight?
Take me away wherever you like
'Cause I only want you, my baby
No place I rather be, you're all I need
All I want, so let's go
You're all I need in my life
When I'm wit' you everything is just right
