Days Is Almost Gone

The Derek Trucks Band

Was a time when I was younger
I saw things get out of hand
Now I'm older in the story
I realize where I've been
It's time I finally saidThese days is almost gone
These days is almost gone
These days is almost gone
Don't be late
'Cause the sun won't waitTakin' time and patience
To turn ourselves around
And maybe it's just learnin'
To live with what we found
I love to hear the soundWhen you wait too long
To get it right
Life can pass you by
The second chance
Can be you're last
I'm reachin' for the light
Yes I amThese days is almost gone
These days is almost gone
These days is almost gone
Don't be late
'Cause the sun won't waitThese days is almost gone
These days is almost gone
These days is almost gone
Don't be late
'Cause the sun won't waitDays is almost gone (repeat to fade)
