

Fallen Angels

Vital Remains

Fallen angels souls of hate
Fallen angels creating sin
Fallen angels unholy fate
Fallen angels descend Fallen angels impregnate
Fallen angels Christian faith
Fallen angels penetrate
Fallen angels Hell's 7 gates Fallen angels casted out from Heaven
Blackened souls blasphemy of the holy
Gates to Hell opened covered in Satan's blood Darkened and cold kingdom of hate
Spreading disease reeking plague
Abundance of crosses inverted in blood
Rancid carcass harvesting fate
Temple of God inferno rage
Fallen angels squaff the guru's blood Fallen angels souls of hate
Fallen angels creating sin
Fallen angels unholy fate
Fallen angels descend Fallen angels impregnate
Fallen angels Christian faith
Fallen angels penetrate
Fallen angels Hell's 7 gates Bestial rites....Malevolence life
God is massacred....Crucified The dead exhumed lore of Satan
Hail the master Baphomet
Crematorium burns the souls
Fallen angels take your lives Subhumanity morbid reality
Infernal forces demonic perversity
Gross contortions decaying proportions
Fallen angels thrive on Jesus blood Bestial rites....Malevolence life
God is massacred....Crucified
