

# So Deep

Kiesza

Tell me why you want it  
As you turn my body into shapes  
Bend me to your madness  
Keep bending my heart into deeper shapes  
Paint me with your body  
I wanna be the canvas underneath  
Let me see your magic  
I feel you taking over me  
Baby I can never find relief  
I'm still loving you right now, right now, right now  
I feel it's never leave  
I'm just loving you, right now, right now, right now(Taking my love, baby I'm so deep now  
Can't get out  
Baby I'm so deep now  
Taking my love baby I'm so deep now  
Can't get out  
Baby I'm so deep now)Taking my love, baby I'm so deep now  
Can't get out  
Baby I'm so deep now  
Taking my love baby I'm so deep now  
Can't get out  
Baby I'm so deep nowEven in the darkness  
You can make a rapture of my pain  
Somehow you go beneath it  
And take my heart to a higher place  
Break me into pieces  
You can a choose of a colour of my fate  
Long as we can keep it  
You can have it all againBaby I can never find the need  
I'm still loving you right now, right now, right now  
I feel it's never leave  
I'm just loving you, right now, right now, right now(Taking my love, baby I'm so deep now  
Can't get out  
Baby I'm so deep now  
Taking my love baby I'm so deep now  
Can't get out  
Baby I'm so deep now)Taking my love, baby I'm so deep now  
Can't get out  
Baby I'm so deep now

Taking my love baby I'm so deep now  
Can't get out  
Baby I'm so deep now I just wanna let my time  
Boy lose it with you yeah  
So won't you give it up to me Tell me why you want it  
As you turn my body into shapes  
Bend me to your madness  
Keep bending my heart into deeper shapes  
Paint me with your body  
I wanna be the canvas underneath  
Let me see your magic  
I feel you taking over me  
Baby I can never find relief  
I'm still loving you right now, right now, right now  
I feel it's never leave  
I'm just loving you, right now, right now, right now
