Electric Funeral

Bill Ward/Geezer Butler/Ozzy Osbourne/Tony Iommi

Reflex in the sky
Warn you you're gonna die
Storm coming, you better hide
From the atomic tide
Flashes in the sky
Turns houses into sties
Turns people into clay
Radiation minds decay
Robot minds of robot slaves
Lead men to atomic graves
Plastic flowers melt in sun
Fading moon falls upon
Dying world of radiation
Victims of mad frustration
Burning glow of obscene fire
Like electric funeral pyre
Buildings crashing down
To Earth's cracking ground

Rivers turn to wood
Eyes melt into blood
Earth lies in death bed
Clouds cry for the dead
Terrifying rain
Ease the burning pain
Electric Funeral
Electric Funeral
Electric Funeral
Electric Funeral
And so in the sky
Shines the electric eye
Supernatural king
Takes Earth under his wing
Heaven's golden chorus sings
Hell's angels flap their wings
Evil souls fall to Hell
Ever trapped in burning cells!
