

He's Alive

Leap of Faith

He saw the man, he heard him call He saw the healing, he saw it all
He tasted wine, the crowd was fed He saw him live, he saw him dead
He turned away, he hid in shame The stone rolled back, and the answer came

Chorus:

He saw his saviour go to heaven He saw his saviour go to heave
He saw his saviour go to heaven And now he knows that He's alive

I loved my Dad, we walked together He taught me how to live with hope
His strong faith showed me that never Does God leave us alone to cope
I cried out when his time came, but In a vision, the answer came

Chorus

I saw my daddy go to heaven I saw my daddy go to heaven
I saw my daddy go to heaven And now I know that he's alive

Blessed are those who haven't seen And still prepare the way
Like Peter, Paul my Dad and me Walk by faith each day

Chorus

I know my daddy lives in heaven I know my Jesus lives in heaven
Someday we all will live in heaven We'll live forever by His side, Yah Cause I know that He's alive
