

# Maybe

## London Grammar

Live young  
For me as well  
Ooh  
You did always, take the weather  
Be the one  
To carry on  
Aha, aha  
Like you always, do Photographs, oh you look so well  
And from here  
I can tell  
You'll take a step away from what was so near  
And where are you now  
Without a sound  
Are you there  
And the face in the crowd  
Feet over harsh ground  
Are you there somewhere Maybe, maybe, maybe, maybe, darling  
Oh oh oh, ho  
Maybe, maybe, maybe, maybe, darling  
Oh oh oh, ho  
Quiet  
Company  
Is for you  
Is for you to keep Photographs, oh you look so well  
And from here  
I can tell  
You'll take a step away from what was so near  
And where are you now  
Without a sound  
Are you there  
And the face in the crowd  
Feet over harsh ground  
Are you there somewhere Maybe, maybe, maybe, maybe, darling  
Oh oh oh, ho  
Maybe, maybe, maybe, maybe, darling  
Oh oh oh, ho And where are you now  
Without a sound  
Are you there  
And a face in the crowd

Feet over harsh ground  
Are you there somewhere Maybe, maybe, maybe, maybe, darling  
Oh oh oh, ho (are you there somewhere)  
Maybe, maybe, maybe, maybe, darling  
Oh oh oh, ho (are you there somewhere)
