

# A Step Away

## No Address

What would be enough to turn your head around?  
From your heavy tongue the heaviest of  
So I go, tremble shake  
I am just a step away, I'm a step away  
Here's your song laid at your feet  
Show them how, they trample me  
Hearts are dragging all across the pavement slam the dirt  
So I make you take the worst and you can't help but go and ask for more  
I throw these words away as autumn hits the ground  
I'm sorry Mom and Dad, just can't listen  
So I go, tremble shake  
I am just a step away, step away  
So here's your song laid at your feet  
I show them how, how you swallow me  
Hearts are dragging all across the pavement slam the dirt  
So I make you take the worst and you can't help but go and ask for more  
Here's your song, ask for more, yeah, yeah, you ask for more

Your smoke just burns my face, I fake a stomach ache  
What I hate to say is everything I mean  
Here's your song laid at your feet  
And show them how, they trample me  
Hearts are dragging all across the pavement slam the dirt  
So I make you take the worst and you can't help but go and ask for more  
So here's your song laid at your feet  
I show them how, how you swallow me  
Hearts are dragging all across the pavement slam the dirt  
So I make you take the worst and you can't help but go and ask for more  
You ask for more  
You ask for more  
You ask for more  
You ask for more
