## Ghost

## **The Cinema**

I first let a cat out of the bag It scratched my eyes out And ordered me to go (Woo woo) To Answer all the questions I had (woo woo) will it all become clear? will it all become clear now?

> Go back get her! Go back get her! Go back get her! Go back get her! Go back get her!

Go back get her! Go back get her! Go back get her! Go back get her! Go back get her!

When I found that the ice was going to melt The seagulls kept on writing on the ground To Answer all the questions I had Will it become clear? will it all become clear now?

> Go back get her! Go back get her! Go back get her! Go back get her! Go back get her!

Go back get her! Go back get her! Go back get her! Go back get her! Go back get her!

Go back get her! (Go back you better get her) Go back get her! (Go back you better get her) Go back get her! (Go back you better get her)
