

# Ocean Love (From "Royal Crush Season 2")

Alex Aiono

Can you feel it?  
It's the ocean love  
Yeeaaahhh

Can you feel it?  
It's the ocean love  
Yeah

Your friends told me what was going on  
You're feeling hurt and you're all alone  
Sometimes life really gets to you  
I know, I know

You been feeling like your hearts too small  
That it hardly beats or not at all  
Sometimes it helps to just talk  
You know, You know

Girl I'll show you that you can leave it all behind

Let me take you to the ocean front  
Me and you will be the only ones  
We can sit, we can watch the sun go down  
There's no room for a broken heart  
Only room for another start  
Over here in the ocean love

Can you feel the ocean love?  
Tell me can you feel the ocean love?

We could walk  
Hand in hand leave your footprints in the sand  
Let the water wash them away like a second chance  
Perfect view but we're watching the pain go  
Sitting there singing something over the rainbow

And I know that your heart's on fire  
Let the waves kill the flame of the ocean tide  
Every time it burns we can take it back  
Right here, right now

Girl lets make a pack

Let me take you to the ocean front  
Me and you will be the only ones  
We can sit, we can watch the sun go down  
There's no room for a broken heart  
Only room for another start  
Over here in the ocean love

Can you feel the ocean love?  
Tell me can you feel the ocean love?  
Tell me can you feel the ocean love?  
Tell me can you feel the ocean love?

Girl it's just the perfect remedy  
The most beautiful thing you've ever seen  
Letting go of everything

Can you feel the ocean love?  
Tell me can you feel the ocean love?

Let me take you to the ocean front  
Me and you will be the only ones  
We can sit, we can watch the sun go down  
There's no room for a broken heart  
Only room for another start  
Over here in the ocean love

Can you feel the ocean love?  
Tell me can you feel the ocean love?  
Tell me can you feel the ocean love?  
Tell me can you feel the ocean love?

Can you feel the ocean love?
