

# On My Way to Heaven (feat. Richard Bedford)

## Above & Beyond

You always laugh  
when I cry  
I'm always looking to tomorrow  
as you mourn the days gone by  
You always tread  
on my toes  
But my guiding hand of love  
is helping everywhere you go  
I'm always wrong  
you're always right  
But I can see right through the lies  
To the never changing light  
Rain on me  
my arms are cold  
I want to get home  
but there's water on the road  
And if I do  
you will not change  
I'm just a singing satellite  
In an orbit that is strange.  
I want to love  
I want to smile  
Get your arms inside my head  
and stop me thinking for a while  
I'm just a fool  
Hung on a sting  
But since you put these thorns around my head  
You know I am a king  
A king of everything and nothing  
I'm on my way to heaven...I'm always here  
I'm in denial  
When there's nothing left between us  
I will stay another while  
You know you're free  
You've got your wings  
And I am just another angel  
With a voice who wants to sing  
Yeah, yeah, yeah  
Almighty  
I'm on my way to heaven  
Yeah, yeah, yeah  
I'm on my way to heaven  
I want to cry  
I want to steal

A little ray of perfect sunshine  
From the sun above the hill  
I want to laugh  
I want to smile  
Get your arms inside my head  
Stop me thinking for a while  
I'm just a fool  
Hung on a sting  
But since you put these thorns around my head  
You know I am a king  
A king  
A king of everything and nothing  
I'm on my way to heaven...
