

# Bon Scott

## Superpunk

Stood up spoke his mind  
Never pointed finger  
Cried out many times  
A god's given bringer  
Are you digging this  
Going back in time  
Music old or new  
You always come to mind  
    Bon Scott that it is  
Your words never missed  
    In after life I believe  
    You ain't no history  
Hope you're feeling free  
    Perfect play on words  
Something I could lean on  
    This song's in return

For helping me ride on  
    Bon Scott that it is  
Your words never missed  
    In after life I believe  
    You ain't no history  
Hope you like what you see  
    And feeling free - Yeah  
You know the piace you got the key  
    Bon Scott that it is  
Your words never missed  
    In after life I believe  
    You ain't no history  
Hope you like what you see  
    And feeling free - Yeah  
    Bon Scott that it is  
The boys keep rocking ot  
Singing your songs out loud.
