## **To My Own Devices**

## **Soul Asylum**

Shouldn't' a got so loaded
Damn near exploded
Oh Lord, you know, I should'a known itWhatever the price is, whatever the crisis
Oh please don't leave me to my own devices
Please don't leave me to my own devices
Oh please don't leave me to my own devicesShe was a pretty good waitress
Said she waited on Elvis
Said she talks too muchPlease don't leave me to my own devices
Oh please don't leave me to my own devicesSave it up for a rainy day
It just rained yesterdayWhatever the price is, whatever the crisis
Oh please don't leave me to my own devices
Please don't leave me to my own devices
Oh please don't leave me to my own devices
(Uuh, na uuh, na, uuh, uuh)
