

Little Girls Pointing and Laughing

[Alexisonfire](#)

(We can't)
I still can
(Stop now)
Remember what you did.
Your eyes filled
(We've got)
Discomfort
(To slow down)
Bare foot in a public washroom. Spill on me your nostalgia
And cataracts
That fell
Behind self-conscious eyes. Warm water made
(Please just give me back my heart)
This hurt so good
(Well it's been too long)
Through ivory rain
(And I will burn no more)
And cutthroat soap box derby racers (Oh God. Hurt so fucking good. Little girls pointing. Pointing. Pointing and
laughing.)
