Rock With You

Inner Circle

Yeah, all I wanna do is rock with you
Love is me, love is youAll I wanna do is rock with you
Shout it out an' tell your friends too
Love is me, love is you
This is what we wanna doLet's talk a while, my friend
Find out what's on your mind
Drift away in a darkness
We've been sleepin' much too long
Enough, it's time to get upWe gotta carry on
(Carry on)
Let's carry on
(Carry on)Yeah, all I wanna do is rock with you
Shout it out an' tell your friends too
Love is me, love is you
This is what we wanna doAll I wanna do is rock with you
Shout it out an' tell your friends too
Love is me, love is you
This is what we wanna doLike a rose in the summer
In the midst of thorns our love must grow
The rivers must flow
We've been sleepin' much too long
Enough it's time to riseWe gotta carry on
(Carry on)
Let's carry on
(Carry on)Yeah, all I wanna do is rock with you
Shout it out an' tell your friends too
Love is me, love is you
This is what we wanna doAll I wanna do is rock with you
Shout it out an' tell your friends too
Love is me, love is you
This is what we wanna doWe gotta carry on
(Carry on)
Let's carry on
(Carry on)
Love is me, love is you
Enough, it's time to riseAll I wanna do is rock with you
Shout it out an' tell your friends too
Love is me, love is you
This is what we wanna doAll I wanna do is rock with you

Shout it out an' tell your friends too
Love is me, love is you
This is what we wanna doAll I wanna do is rock with you
Shout it out an' tell your friends too
Love is me, love is you
This is what we wanna doAll I wanna do is rock with you
Shout it out an' tell your friends too
Love is me, love is you
This is what we wanna do
