

The One

Mariah Carey

See I'm going through a situation that I can't help
Wanna get a little closer but I promised myself
That I would never give my heart away, again
Ooh ooh babe, I know it's hard but cha gotta understand it
The truth is all the hurt and the pain and the shit that you get
When you have it ain't worth it I've been there so many times
I should know better but I can't stop what I feel
When you're next to me I really think I
Finally found somebody that could be the one
But I promised myself that I wouldn't give in to love
And I'm scared and I'm nervous don't wanna be hurt anymore
This is bad 'cause I know that you're the one
Finally found somebody that could be the one
But I promised myself that I wouldn't give in to love
And I'm scared and I'm nervous don't wanna be hurt anymore
This is bad 'cause I know that you're the one
See the problem with relationships
In general is that it's always a game
In the beginning they'll do anything to have you
And once they do it's never the same
And I, know everyone out there can relate, so the question is
One, do I really wanna trust this feeling
Two, do I wanna let it pass me by
Three, do you think it's only superficial
Four, could it actually be different this time
Someone to love me, someone to be my everything
Maybe I've stumbled upon
Finally found somebody that could be the one

But I promised myself that I wouldn't give in to love
And I'm scared and I'm nervous
I just don't wanna be hurt anymore this is bad
'Cause I know that you're the one
Finally found somebody that could be the one
But I promised myself that I wouldn't give in to love
And I'm scared and I'm nervous, don't wanna be hurt anymore
This is bad 'cause I know that you're the one
Oh baby, sweet darling
I, I think I finally found

Finally found somebody that could be the one
But I promised myself that I wouldn't give in to love
And I'm scared and I'm nervous don't wanna be hurt anymore
This is bad 'cause I know that you're the one
Finally found somebody could be the one
But I promised myself that I wouldn't give in to love
And I'm scared and I'm nervous don't wanna be hurt anymore
This is bad 'cause I know that you're the one
Finally found somebody could be the one
But I promised myself that I wouldn't give in to love
And I'm scared, and I'm nervous, don't wanna be hurt anymore
This is bad 'cause I know that you're the one
Finally found somebody that could be the one
But I promised myself that I wouldn't give in to love
And I'm scared and I'm nervous don't wanna be hurt anymore
This is bad 'cause I know that you're the one, 'cause baby your the one
Finally found somebody that could be
