Try to Remember

Spacehog

Do you remember who you think you used to be?
Such a pretender, now you're lost in memories.
Was it all in my head? Am I writing it in?

Down, down, I really think you wanna come down
(Try to remember)
Round round, I really think you wanna come round
(Get off your high horse)

Do you remember who you used to think you were?
I need a reminder, cause I'm not entirely sure.
Was it all in my head? Am I writing it in?

Down, down, I really think you wanna come down
(Try to remember)
Round round, I really think you wanna come round
(Get off your high horse)
Slow down, I really think you wanna slow down
(Try to remember)
Down, down, I really think you wanna slow down

Oh my love, my life.
Oh my love, my life.
(Try to remember)

Do you remember?
Do you remember?
Do you remember?
Do you remember?
