

# Winner Takes Nothing

## Camouflage

Beyond the basic things I wish you  
I will just recall you to my love  
From time to time I will show this fact  
preferably to you  
although everything has gone by

I was so sure that I would get you  
but it was a fight against your heart  
And today, the day I've met you  
is the day since I can see  
that there is someone  
who is better than me.
