

Turn to You

Michael Johns

When I can't find my way out alone
It's you that I turn to
When everything seems to be gone
Well, it's you that I turn to
When nobody wants to know
Well, it's you I can lean on
I know I'm not always so strong
It's you I can lean on
When times get hard she brings me love
She's everything to me, oh
When times get rough she holds me up
Like nobody else can
When all I know gets lost
Well, it's you I can run to
When it feels like I'm so far from home
It's you I that I run to
When times get hard she brings me love
She's everything to me
When times get rough she holds me up
Like nobody else can
When I can't find my way out alone
Well, it's you that I turn to
When everything seems to be gone
Well, it's you that I turn to
