Love's On Fire

Nikki Lane

I tell you this road is an awful partner
Got me so strung out
I know you think it's just one big party
But that's not what it's all about

I know you say you don't wanna leave
But the house just gets so quiet
I lay around and hope the phone might ring
Won't you sing me to sleep tonight?

Love's on fire
Love's on fire
This travelin' round's got us burning down
Got us hangin' by a wire
It started with a spark but the wind came 'round
And now our love's on fire
And now our love's on fire

You and me we got so much love
But we got no money to burn
I'm going away so I can make us something
Sure as the wheels do turn

The days and the nights, they just crawl along
It's been a week without a call
Sometimes I wonder if I'm better off alone
Do you think of me at all?

Love's on fire
Love's on fire
This travelin' round's got us burning down
Got us hangin' by a wire
It started with a spark but the wind came 'round
And now our love's on fire
And now our love's on fire

How could we know how love was supposed to go?
Oh, I know, oh, I know it ain't easy
Oh, I know, oh, I know it ain't easy

Love's on fire
Love's on fire
This travelin' round's got us burning down
Got us hangin' by a wire
It started with a spark but the wind came 'round
And now our love's on fire
And now our love's on fire
