

# Don't Miss You

Ricki-lee

Was just the other day when you said to me  
That you had enough  
Told me that you wanna move on with your life  
And now you sing to me the same old melody  
That I'm still the one  
You thought I'd hang around while you made up your mind  
I used to say that you were everything  
You got your way but not anymore  
Did you think it would be that easy  
Did you think I'd be back for more  
Loving you was a big mistake cos I don't miss you at all  
Did you think I would wait forever  
Baby like the others did before  
Loving you was my mistake cos I don't miss you at all  
No, I don't I don't I don't miss you  
So here you are today trying to manipulate  
But that won't work this time  
Cos baby don't you know you're the last thing on my mind  
Not gonna hesitate don't wanna recreate the dreams you broke in two

So I'll pick up the pieces of my broken heart and be done  
Did you think it would be that easy  
Did you think I'd be back for more  
Loving you was a big mistake cos I don't miss you at all  
Did you think I would wait forever  
Baby like the others did before  
Loving you was my mistake cos I don't miss you at all  
No, I don't I don't I don't miss you  
No, I don't I don't I don't miss you  
No, I don't I don't I don't need you  
I gotta move on with my life  
Cos I don't miss you at all  
Did you think it would be that easy  
Did you think I'd be back for more  
Loving you was a big mistake cos I don't miss you at all  
Did you think I would wait forever  
Baby like the others did before  
Loving you was my mistake cos I don't miss you at all
