

# Lions of the Sea

## Running Wild

Strong and proud the cruise, black banner at the top  
The spoondrift hits the bow, they round the reefs and rocks  
The voice of freedom whispers in the rushing wind  
They roam the raging sea on their gliding wings They fight the black to save the truth  
They fight the scorning lie  
Oppressions wall they will destroy  
They'll fight it till they die Lions of the sea  
They ride the wind eternally  
They fight to be free  
Roaming the seven seas of fate They save their souls from black, from its evil void  
Facing the challenge its coldness to destroy  
They deny the temporal power, they deny their evil lies  
They're strain at the leash until the evil dies They fight the black to save the truth  
They fight the scorning lie  
Oppressions wall they will destroy  
They'll fight it till they die Lions of the sea  
They ride the wind eternally  
They fight to be free  
Roaming the seven seas of fate They brave the sea eternally, they tame the raging waves  
Freedom is their destiny, the sea will be their grave Strong and proud the cruise, black banner at the top  
The spoondrift hits the bow, they round the reefs and rocks  
The voice of freedom whispers in the rushing wind  
They roam the raging sea on their gliding wings They fight the black to save the truth  
They fight the scorning lie  
Oppressions wall they will destroy  
They'll fight it till they die Lions of the sea  
They ride the wind eternally  
They fight to be free  
Roaming the seven seas of fate Lions of the sea  
They ride the wind eternally  
They fight to be free  
Roaming the seven seas of fate
