# Wrong Way

## Lennon

Ive come too far to turn around now
Keep getting lost by too many mistakes
I started down this path a long time ago
Searching for someone I use to knowChorus:
Ive been traveling for so long
Feels like Im home but I know I dont belong
And Ive been searching from place to place
Trying to find myself but always turning the wrong way
Turning the wrong wayVerse:
Another city, another name I dont recall
They might have been right, this is all my fault
Asking strangers have you ever seen this face
Saying you missed her, she just passed here yesterdayChorus:
Ive been traveling for so long
Feels like Im home but I know I dont belong
And Ive been searching from place to place
Trying to find myself but always turning the wrong way
Turning the wrong wayBridge:
So many people feel the same every day
Nobody acts they just turn the other way
Why do I listen to what they say
When all I want is to find my own wayChorus:
Ive been traveling for so long
Feels like Im home but I know I dont belong
And Ive been searching from place to place
Trying to find myself but always turning the wrong way
Turning the wrong way
