

# My Memories

## Reactive Black

Now everything's ruined  
I saw the end coming nearer  
And nearer again  
I told you about these signs  
But your disbelief's growing  
Higher and higher  
While I knew that  
Something has died  
Why I always know  
When something dies

It's a sad destiny  
I felt you fall more and more apart  
Still struggling into deep waters  
And find out the way  
To everlasting salvation

I wanna be free again  
I wanna break these chains  
I wanna live again  
I wanna break these chains
