

Biased Bigotry

[MxPx](#)

It's so easy to find the faults in everyone else and not look at myself
Getting used to not having to look at the facts of where I'm at You don't know me so don't judge me
Your biased bigotry can't control me God's son, my judge only He, not you, who are you?
You see my skin, God sees my heart deep within [Incomprehensible] You don't know me so don't judge me
Your biased bigotry can't control me The way I see, the way it seems to me
I won't agree, you can't live my life for me You don't know me so don't judge me
Your biased bigotry can't control me
