

# Assimilate (R23)

## Skinny Puppy

Oil remove shred and tear radiation vapor  
It's the fear so unclear man in motion going nowhere  
In our homes stuck in the face spread the word to the populace  
Yellow journal yellow journal set the pace feel the rageManifestations of a sort so insidious off the point  
Simple solution never confusion sport a gun kill a cop  
Crazy world of weary thought so receive me had enough  
Lock me up lock me upRot and assimilate so hot to annihilate  
Deviation tonic mess prolonged existence innocence  
Is he who speaks isn't weak wheelchair virtue so to speak  
Bubonic plague the truth of aids immunity avoid decayIn the trench of pestilence the bible screams announce  
your faith  
Mutterings of death to bring suffocate a newborn thing  
Degradation of an age venereal it's all sensation  
Protect design the moral plan infallible as propagandaCompletely black with no steps back  
Hot to assimilate we'll rot or annihilate  
Agony profusely stains the inner thinking of the brain  
Accusations clanking chains experiments with the groans of painAll prefer no one blames the terror in an  
animal's screams  
In cages our future, the answers insane
