

Never Made a Promise

Kingdom Heirs

I have the blessed assurance and it helps me to face every storm,
A foretaste of heaven, I cling to and that's what I've built my life on.

So instead of the struggle I'm facing, let me tell of the Savior I know,
How His Word is today and for always, so I always have a reason to hope.

There's never been a long night He won't bring me through,
There's never been a morning His mercies aren't new,
There's never been a moment He's not all I need,
He's never made a promise that He does not keep.

He tells me that He'll never leave me, that He will be strong when I'm weak
And I'll find grace is sufficient, whatever my heartache and grief
Oh, the trials of this life always show me He'll be faithful to me till the end
That's why my song, my story, is of Jesus, my Savior and Friend!

Cause there's never been a long night He won't bring me through,
There's never been a morning His mercies aren't new,
There's never been a moment He's not all I need,
He's never made a promise that He does not keep.

There's never been a moment He's not all I need,
He's never made a promise that He does not keep.
