Where Dark and Light Don't Differ

Immortal

Barbaric tempered steel
Strike forth and toll our days
The red and black of our Victorian crestWe flag beneath... Beneath the solar seas
We grant as the might to conquer
So spread be our wrathMeet the voice... The voice of the darkblind souls
As it blasts from an open skyvictorious... Victorious we live over all
Strong men under us fall
The longer we ride this yearn will make us findWhere dark and light don't differ
Where dark and light don't differWinterized... Blackening descend
Mesmerized... Into demonlandFar... Far and further away
In mightful strong
And mindless realmsWe flag beneath... Beneath the solar seas
Again it's time to conquer
So spread be our wrathWhere dark and light don't differ
Where dark and light don't differWinterized... Blackening ascend
Mesmerized... Into demons landThe longer we ride... the stronger we stride
