

Joystick

Simon Curtis

I can't count all the times that I had to say I'm sorry
For wanting something with a few more bits than my Atari
 Don't play a game, boy
 They said it would get old
But sometimes boys like me are curious
 And can't be told no
You came along and had me saying
 "What is this?"
Your sexiness had got me ready for the GenesisBaby, grab a hold of the joystick
 Take control of the motion
 I can feel it when you huh-huh
 Baby, you make all of the choices
 Other players can join us
If you're feeling like you wanna play gamesIf you wanna play games [x7]
 If you wanna playThen I upgraded to Nintendo 64
 And your first time with a joystick
 Left you feeling like a who-ho-ho-ho
 Hyper gamer, nothing greater
 We can play all night
 You'd better be some competition
'Cause I want a fightBaby, grab a hold of the joystick
 Take control of the motion
 I can feel it when you huh-huh
 Baby, you make all of the choices
 Other players can join us
If you're feeling like you wanna play gamesIf you wanna play games [x7]
 If you wanna playI don't want you thinking
 That I'm trying to apply pressure
 But the pressure makes it better
 Pushing harder makes it wetter
 If you wanna skip a level
 Then we'll go to level two
 Just beat my boss and get me off
 And then I'll play with you
 You, you, me
Okay, just plug the damn thing in alreadyIf you wanna play games [x7]
 If you wanna playBaby, grab a hold of the joystick
 Take control of the motion
 I can feel it when you huh-huh

Baby, you make all of the choices
Other players can join us
If you're feeling like you wanna play games If you wanna play games [x7]
If you wanna play
