Fall Again

Bullerbyne

It feels like a fire that burns in my heart
Every single moment that we spend apart
I need you around for every day to start
I haven't left you aloneThere's something about you, I stare in your eyes
And everything I'm looking for I seem to find
All this time away is killing me inside
I need your love in my lifeI wanna spend time till it ends
I wanna fall with you again
Like we did when we first met
I wanna fall with you againWe fought in a battle, nobody won
And now we face a mountain to be overcome
You can't turn away, the past is said and done
I need us to carry onI wanna spend time till it ends
I wanna fall with you again
Like we did when we first met
I wanna fall with you againYou'll try everything you never thought would work before
When you live, when you love
And you give them your all
You can always give up some moreBaby, nothing means anything
Unless you're here to share it with me
I can breathe, I can bleed, I can die in my sleep
'Cause you're always there in my dreamsI wanna spend time till it ends
I wanna fall with you again
Like we did when we first met
I wanna fall with you againI wanna spend time till it ends
I wanna fall with you again
Like we did when we first met
I wanna fall with you againYou again
