The Ol' Switcheroo

The Struts

Alright
C'monYou're sure the one that I want
But we need you
To say it's alright
Cause every time we hang out
We have fun (?)
And it ends up in a fight
You're back with my best friend
The same time that I've been loving you (?)
He's always seen with my girl (?)
Why don't we do the Ol' SwitcherooYou can't stop this feeling
Oh, you can't keep our hearts from beating'Cause I want, what he's got
And he wants what I've got
And I know what you want
So let's trade what we've got
He'll be with her (?)
I'll be with you
And nobody's blue
How times have changed there's nothing wrong
With the Ol' SwitcherooIt's true we might tempt faith
Every time that we go out on a date
Lips never tasted so great
Especially when you share it with me (?)We can't stop this feeling
Oh, we can't keep our hearts from beating'Cause I want, what he's got
And he wants what I've got
And I know what you want
So let's trade what we've got
He'll be with her (?)
I'll be with you
And nobody's blue
How times have changed there's nothing wrong
With the Ol' SwitcherooGo
There's nothingYou can't stop this feeling
We can't keep our hearts from beating'Cause I want, what he's got
And he wants what I've got
And I know what you want
So let's see what we've got
I want, what he's got
And he wants what I've got

And I know what you want
So let's trade what we've got
He'll be with her (?)
I'll be with you
And nobody's blue
How times have changed there's nothing wrong
With the Ol' Switcheroo
Oh
